

# AQUATRAX

07

At Honda, we approach every powersports category with the same goal: to totally reinvent it, dominate it and make it pure Honda. And that's exactly what we've done with our complete line of AquaTrax® personal watercraft. We were the first to build a complete four-stroke lineup, the first to build a production turbocharged model and the first to bring personal watercraft to a new personal best. Nothing out there offers the leading performance of our advanced hulls, innovative features, legendary reliability and unique four-cylinder four-stroke marine powerplants. We're leading the entire industry to a new level — a level we call Pure Performance.™

# R-12x

Pure performance. Pure excitement. Pure fun. Pure Honda.

**F-12 / F-12x<sup>GPScape</sup>**

Honda's AquaTrax line of personal watercraft really stands out. And the closer you look, the better they look. For example, every AquaTrax has a four-stroke powerplant that's built especially for marine use. They run cleaner, are super-reliable, and—most important—they offer so much power that your day is going to fly by. How many choices do you have? Here's the short version: The F-12X<sup>GPScape</sup>, F-12X and F-12 are three-person boats, while the R-12X is a two-person watercraft. Each one uses a special Honda hull, and their strong, twin-chine sculpted fiberglass designs provide both rock-solid handling and exhilarating carving performance. Every model offers left-side reverse, off-throttle steering, electronic keyless ignition and convenient, watertight storage. But best of all, every AquaTrax offers something no other builder can: Honda's unmatched reputation for quality, durability and reliability. So experience the Honda performance that's part of every AquaTrax, and you'll never settle for anything less again.

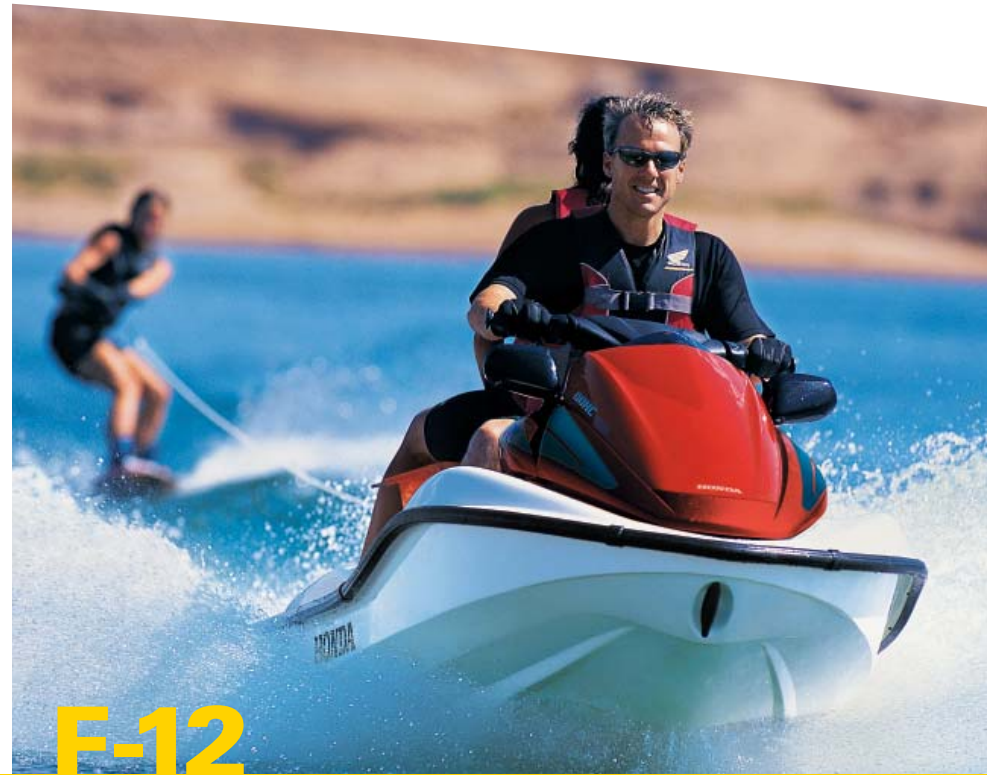

**F-12x<sup>GPScape</sup>**

# F-12x

**F-12X GPScape / F-12X Ultimate Luxury Touring** The Honda AquaTrax F-12X and F-12X GPScape are designed so you can share the fun with two passengers. The F-12X GPScape adds the convenience of a rear boarding step with the industry's leading navigational aid. GPScape lets you input waypoints and makes getting back to your favorite spots easier than ever. The turbocharger on both models means plenty of power and — combined with the F-12X's long hull — gives you all the comfort and stability you want for day-long trips. And with over 25 gallons of storage space, you'll be able to take along everything you need.

**F-12 Recreational Runabout** The AquaTrax F-12 is the perfect family boat. It features a high-compression engine with a special pair of camshafts and valve springs to

# F-12

give it a horsepower boost, while a 147mm Solas® jet pump and impeller hook up for smooth, linear power delivery. No wonder this is a favorite for families who like to tow their toys. And no wonder the AquaTrax F-12 is one of the most versatile boats we build.

**R-12X High-Performance Musclecraft** Take the spirit of our championship-winning Honda sportbikes, dress it up for the water, and you've got the 2007 Honda AquaTrax R-12X. At the heart of this two-person hot rod is our no-holds-barred turbocharged engine. The race-inspired quick-trim system is a handlebar-mounted lever that lets you fine-tune your R-12X's trim pitch instantly for sharper turn entry and exit. Put it all together and you have one of the most intense, precise-handling watercraft ever built.

## Features

**GPScape** Integrated into your boat's dash and designed for marine use, GPScape has a large, easy-to-read display. Since it runs off your boat's electrical system, you never have to worry about dead batteries.

**Rear Boarding Step** A standard feature on the F-12X GPScape, this makes getting back up on the boat easier than ever. It's also available as an accessory for the F-12X and F-12.

**Turbocharger** Designed for marine use, and pure Honda. Our turbocharged "X" models feature all the power—and all the fun—with none of the parasitic power cost of a Supercharger.

## ENVIRONMENTAL COMMITMENT

At Honda, we believe in performance and leadership, and that's why we're taking a leadership position when it comes to the environment. We continue to develop low-emission technologies for our current and future personal watercraft, ATVs, motorcycles and scooters. Our PWC models exceed stringent EPA emissions requirements. And that's the kind of performance everybody can appreciate.

**PROGRAMS THAT PERFORM** You chose your new Honda AquaTrax because it has so many great features. But there's more—a lot more. Like all of the programs available to you as a Honda owner. Take the **Honda Protection Plans**,\* for example. They let you extend virtually all of your Honda's great warranty coverage. Then there's the **Honda Rider's Club of America**.™ Open to all Honda owners, the real-world benefits alone make it a bargain. Just call 1-800-847-HRCA.® You can protect your new AquaTrax with a high-quality PWC cover from **Honda Genuine Accessories**.™ Time for service? Be sure to ask for **Pro Honda**™ Oils and Chemicals. And if you're looking for a way to pay for your new Honda AquaTrax, we've got two great suggestions. First, ask about the **American Honda Finance Corporation**.\*\* If you're a qualified buyer, your dealer can set everything up for you right in the showroom. Another easy way is to put it on the **Honda Card**™ revolving charge card.† You can use the Honda Card to purchase **Honda Genuine Parts**™ and Honda Genuine Accessories too. And ask your Honda Dealer about a U.S. Coast Guard–approved boating-safety course, because sooner or later, **Stupid hurts**.® Hey, we think our Honda AquaTrax models are the best watercraft out there. And we think you deserve the best programs and support to go with them.

**WHAT'S IN A NAME** When you choose a new AquaTrax, you've done more than just pick a great way to enjoy life on the water. You've become a member of the Honda family. And that means your fun is just beginning. On this page, we've listed some of

the programs available to you as a Honda owner, each one designed to help you enjoy your new Honda AquaTrax as much as possible. Just ask your Honda Dealer for more details. And welcome to the Honda family—we look forward to riding with you.

**BE A RESPONSIBLE RIDER** At Honda, we're strong proponents of rider safety. Consequently, we encourage you to ride your new Honda AquaTrax responsibly. And keep a few other things in mind as well.

All Honda AquaTrax models are recommended only for operators 16 years of age and older. Always wear a U.S. Coast Guard–approved personal flotation device, neoprene wetsuit bottom, eyewear and other appropriate safety apparel. Read your owner's manual thoroughly, always ride with a safety lanyard attached to your person, and always ride at a safe speed and at a safe distance from other vessels.

Since personal watercraft are inboard boats, their use is subject to all applicable local, state and federal boating laws and regulations. And remember, riding doesn't mix with alcohol or drugs.

Whenever you ride, please respect the rights of shoreline residents and other marine recreationalists. And we should all work to preserve our future riding opportunities by showing respect for the environment and the rights of everyone on the water.

At Honda, we believe all riders should take a safety course. Call the U.S. Coast Guard at 1-800-368-5647 to locate a boating-safety course near you.

Specifications, programs and availability subject to change without notice. See your Honda Dealer for details on all programs. All specifications in this brochure—including colors, warranty terms, HRCA, etc.—apply only to models sold and registered in the United States. \*The Honda Protection Plans are administered by the American Honda Service Contract Corporation in the state of Florida. License #60083. \*\*Financing available on approved credit by AHFC. †Financing available to qualified customers subject to credit approval from GE Money Bank on the Honda Card program at participating dealers.
